PROFESSIONAL SUMMARY

Final-year Chemical Engineering student at BITS with firsthand experience in strategy, procurement analysis, financial modeling, and AI product development. Conducted primary field research on steel trading, built investment-grade financial models, and launched a live AI platform used by 500+ users. Seeking full-time roles in strategy consulting, private equity research, or investment banking starting August 2026.

PROFESSIONAL EXPERIENCE

TKIL (formerly Thyssenkrupp Industries India) | Pune, India
Strategy & Transformation Consultant (Intern)

Jan 2026 – Present

- Visited steel traders on ground and built a complete trading model for TKIL's steel procurement process.
- Identified major inefficiencies and margin leakages in the existing trader-dependent supply chain.
- Proposed signing direct MOUs with steel mills to bypass traders, cut costs, and improve supply reliability.
- Recommended TKIL operate as its own trader by absorbing overhead offset through higher volumes.
- Designed model projected to deliver 10–15% direct impact on procurement costs and overall profitability.
- Delivered presentations to senior leadership summarizing the trading model, key inefficiencies, and recommendations.

GMR Group | India
Strategy & Operations Intern

Jul 2024 – Aug 2024

- Analyzed operations across 5 business units, mapped workflows, and drove 18% efficiency improvement and 22% cycle time reduction.
- Built 3-year financial model for a sustainability program projecting 22% IRR and secured senior leadership approval.
- Conducted stakeholder interviews and data analysis to identify operational bottlenecks and prioritize high-impact improvements.

Product Playground – AI Platform for Product Managers | Remote
Product Builder & Founder-(<https://productplayground-1.onrender.com>)

Jan 2026 – Present

- Built and launched a live AI platform scaling to 500+ users, helping product managers with strategic decision-making.
- Developed core tools: Product Challenge Analysis, KPI Diagnostics, Product Teardown by URL, Decision Defense Pack, and executive briefings.
- Powered by GPT-4o with a clean professional interface delivering actionable insights and risk assessments.
